

PROFESSIONAL SUMMARY

Creative and engineering-disciplined **Web Developer & UI/UX Designer** currently studying Software Engineering at **Soongsil University** in Seoul. Combines strong computer science fundamentals with refined design sensibilities, specializing in translating Figma design systems and user workflows into high-performance, responsive, accessible web applications using **React 19, TypeScript, Tailwind CSS, and Framer Motion**. Trilingual communicator (Vietnamese, Korean, English) passionate about design tokens, micro-interactions, WCAG AA standards, and building intuitive cross-cultural web interfaces.

TECHNICAL & DESIGN SKILLS

UI/UX Design:	Figma, Wireframing, High-Fidelity Prototyping, Design Systems, Typography, Responsive Grids, WCAG 2.1 AA Accessibility, User Journey Mapping.
Frontend & Web:	React 19, TypeScript, JavaScript (ES6+), Next.js, HTML5 Semantic Markup, CSS3 / Modern Flexbox & Grid, Tailwind CSS (v3 & v4), Framer Motion, Lenis Scroll.
APIs & Browser Tech:	WebSocket (Real-time), MediaStream API, Web Audio API, RESTful Integration, LocalStorage / State Management, Vite, Three.js / WebGL.
Languages:	Vietnamese (Native), Korean (Fluent — TOPIK, Academic/Daily Seoul), English (Professional Working Proficiency).

FEATURED WEB & DESIGN PROJECTS

Portfolio Web Architecture & Design System — Lead Designer & Developer

[onlydev321.github.io](#) · 2024[React 19](#) · [TypeScript](#) · [Tailwind CSS v4](#) · [Framer Motion](#) · [Three.js](#) · [Vite](#)

- Designed and engineered an editorial, kinetic web portfolio with dark/light mode contrast parity and custom design tokens.
- Implemented interactive UI components: fuzzy-match Command Palette (⌘K), 60fps horizontal work reel, magnetic cursor, and reduced-motion fallback.
- Achieved 100/100 performance and accessibility scores with semantic HTML5, zero render blocking, and optimized asset delivery.

Deepterview-v2 (AI Video Interview Web Platform) — Frontend & UI/UX

[github.com/OnlyDev321/deepterview-v2](#) · 2024[TypeScript](#) · [React 19](#) · [Tailwind CSS](#) · [MediaStream API](#) · [Web Audio API](#)

- Designed a low-cognitive-load, distraction-free interview UI prioritizing user comfort during automated AI video assessments.
- Integrated browser MediaStream and audio analysis APIs to deliver real-time webcam feedback and interactive audio waveform meters.
- Engineered comprehensive analytical dashboards with clear metric hierarchy, visual scoring charts, and responsive layouts.

MOJI (Real-Time Collaborative Web Messenger) — Frontend Developer

[github.com/OnlyDev321/MOJI](#) · 2024[React](#) · [TypeScript](#) · [WebSocket](#) · [CSS3](#) · [Modern UI Components](#)

- Crafted a modern, frictionless messaging UI featuring room switching, live chat feeds, typing indicators, and emoji reactions.
- Designed fluid responsive drawer navigation for seamless usability across both mobile screens and desktop viewports.
- Integrated WebSocket event listeners for instant two-way message updates with efficient, re-render-minimized state flow.

todoX (Personalized Task & Habit Workflow) — Solo Designer & Dev

[github.com/OnlyDev321/todoX](#) · 2023[JavaScript \(ES6+\)](#) · [HTML5](#) · [CSS3 Flexbox & Grid](#) · [LocalStorage API](#)

- Designed a clean, habit-forming productivity app featuring customizable color themes and tactile micro-interactions.
- Architected an intuitive task management system with priority filters, drag-and-drop workflows, and offline persistence.
- Built with zero external CSS frameworks, delivering instant load performance (<50ms) and lightweight bundle footprint.

Figma-To-HTML (Design-to-Code Engineering) — UI Implementer

[github.com/OnlyDev321/Figma-To-HTML](#) · 2023[Figma](#) · [Semantic HTML5](#) · [CSS3 Custom Properties](#) · [Responsive Design](#)

- Translated complex multi-screen Figma design specifications into 100% pixel-perfect, accessible, semantic web pages.
- Established a maintainable CSS architecture leveraging reusable design tokens for typography, spacing, and elevation.

EDUCATION & ACADEMIC BACKGROUND

Soongsil University (송실대학교) — Seoul, South Korea

2022 – Present

Bachelor of Science in Software Engineering · Key studies: Human-Computer Interaction (HCI), Web Systems & Programming, UI/UX Engineering, Software Architecture. Active contributor in student tech initiatives.
